Our conference this year is intended to offer a significant opportunity for Healthcare Chaplains & Honorary Chaplains to *share, learn and reflect*.

On the 20th October we will engage with real accounts of Chaplaincy during Covid-19 from across the UK and break into rooms to reflect together before a final plenary.

On the 21st the Revd Dr Iain Macritchie will offer a keynote reflection and we will then continue with our small group facilitated conversations.

The conference ends with a plenary reflection hosted by a panel of members.
